

Quartzly Overview

Transform how your lab buys, tracks and manages supplies with the Quartzly connected lab platform.

What is a connected lab?

A connected lab solution combines supply requests, up to date inventory management, shopping, purchasing, and integrations **all in a single platform.**

Accelerate the pace of discovery by centralizing supply requests, purchasing, and inventory management with Quartzly.

- Save **75%** of the time it takes finding and requesting supplies
- Save **90%** of the time it takes to process supply requests
- Save **70%** of the time spent searching and shopping for the right supplies

Shopping with Quartzly
