35,000+ globally
10,000+ in the US

Quartzly Shop

600,000 total orders
1.2 million items

Suppliers & Products

1,800 life science brands
10 million skus

Inventory & Order Requests

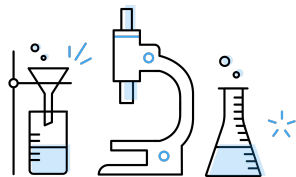

38 million inventory items
18 million order requests

Quartzy's Connected Lab Accelerates Discovery

What's a connected lab?

A connected lab combines supply requests, up to date inventory management, shopping, and purchasing. All in a single platform

For Scientists

Accelerate your pace of discovery and secure funding by achieving research milestones faster.

For lab managers

Eliminate paper inventory tracking!
Centralize your request, purchasing and inventory workflows

For finance & procurement

Avoid rogue buying. Centralize requests, purchasing. Access the best prices for life science supplies in the Quartzy shop

Inventory

Take control of your inventory!

Quartzly makes it easy for everyone to know what supplies are available and where to find them.

Take Control of your Inventory

Keep track of everything!

Our lab inventory manager is fully customizable to keep tabs on the attributes that matter to you.

1. Quickly view inventory location and quantity (Web app or Mobile app) to understand the stuff you have
2. Set minimum and maximum thresholds for inventory items
3. Receive timely alerts when your inventory dips below a threshold to make sure you never run out of the stuff you need

Reduce the time
spent finding supplies
by 75%

The Quartzzy Mobile App

Track inventory stock levels easily.

- Create barcode labels for items in your stockroom
- Scan barcodes from your mobile device to search for the items in Quartzzy
- Easily increase or reduce the amount in stock
- Receive items into inventory by scanning the Quartzzy packing slip

The new mobile app puts the power of Quartzzy into everyone's pockets

Requests

Centralize how you manage supply requests.

We make it easy for scientists to ask for the supplies they need, and for lab managers to approve and respond, **all in one place.**

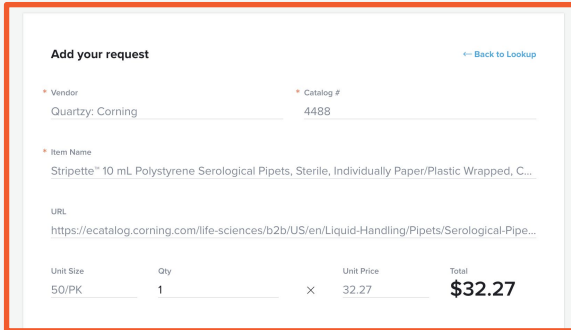

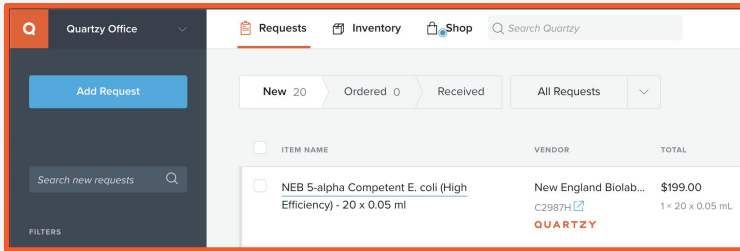

Save 90% of the time it takes to receive, track and process supply requests

Centralize your requests with Quartzzy

- Add a request for supplies from anywhere using our web or mobile app
- Request items directly from inventory
- Search the Quartzzy shop to request the exact item you need
- Setup custom approval workflows
- Keep track of order status and mark items received as they come into the lab
- Export custom reports of requests to understand lab supply usage

Shop

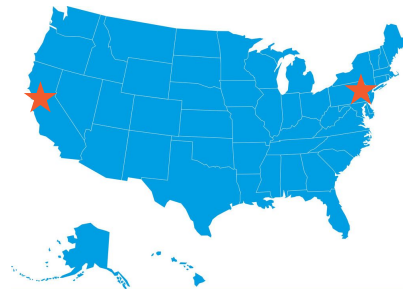

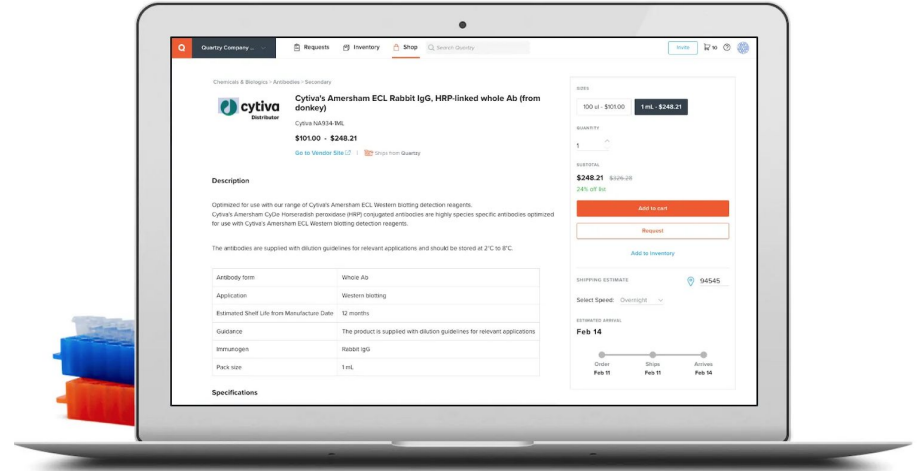

Shop millions of items directly from Quartzly!

With up-to-date inventory and transparent tracking,
Quartzly provides best-in-class reliable buying
experience

Shopping with Quartzzy

The one-stop-shop for all of
your lab supplies

- Competitive pricing
- Single invoice for supplies
- Reliable and transparent tracking & shipping
- Quartzzy Guarantee

Two distribution centers
in the USA

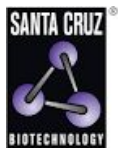

Quartzzy Confidential & Proprietary

Unique Portfolio with Exclusive Brands

Quartzy consolidates ordering from thousands of brands

The Power to Question

Agilent Technologies

Integrations

The Quartzly platform provides integrations with the technologies you use daily for a truly connected lab experience

Achieve the connected lab platform

- Eliminate the manual transfer of data between softwares
- Automate manual process to reduce human error
- Increase efficiency by automatically syncing information between systems
